Personal Summary

I am currently a student at Manchester Metropolitan University studying Website Development. I am a responsible, hardworking and dedicated individual who sets his aims high and will consistently work towards any given goal to the best of my ability. I also consider myself to be a sociable and confident person and believe I have gained these traits through my 4 years of experience in retail.

Key Attributes/Skills

- Known coding languages - HTML, CSS, JavaScript, Ajax and Json.
- Understand the full process of creating a website and have the ability to do this individually as well as part of a team.
- Managerial skills – led two groups at University to successful projects.
- Interpersonal skills – Ability to communicate with people at all levels
- Positive attitude – Always approach the day with an upbeat mind-set
- Organisational skills – Developed through academic studies
- Computer literate – Effective use of Microsoft Word, PowerPoint, Excel
- Responsible – Entrusted with opening and closing a store (Key holder)
- Helpful and friendly member within the team

Education

Currently studying towards a degree in (BSC) Website Development at Manchester Metropolitan University (Predicted 1st).
